

v–vi	PREFATORY NOTE The 3rd International Babylon Conference on Clinical and Experimental Pharmacological Research: prioritising drug safety, <i>in silico</i> drug screening, and the reliability assessment of novel <i>in vitro</i> tools for pharmacodynamic simulations Rafal J. Al-Saigh, Argyro Kyriakaki, and Apostolos Zarros
1–2	PROCEEDINGS ABSTRACT Endocrinopathies associated with immune checkpoint inhibitors: incidence, clinical presentation, and management Angeliki M. Stamatouli
3–4	PROCEEDINGS ABSTRACT Evolving role of surgical intervention in spontaneous intracerebral haemorrhage: evidence from the STICH, MISTIE II / III, and ENRICH trials Alexios Bimpis
5–6	PROCEEDINGS ABSTRACT The application and therapeutic utility of wearable devices in Parkinson’s disease and stroke: current state of evidence Lisa Hagens and Konstantinos Kalafatakis
7–8	PROCEEDINGS ABSTRACT Biochemical mechanisms and clinical efficacy of glucagon-like peptide-1 receptor agonists in metabolic regulation: a comprehensive review Rawnaq Kadhim Salih
9–10	PROCEEDINGS ABSTRACT Pharmacological approach to tooth regeneration <i>via</i> uterine sensitization-associated gene-1 inhibition Zahraa Abbas Mohsin, Mohammed Obies, and Aymen Bash
11–12	PROCEEDINGS ABSTRACT Effects of dietary probiotic supplementation on the serum reproductive hormone levels of rats subjected to high-fat diet- and letrozole-induced experimental polycystic ovary syndrome Bassam Hasan, Aymen A. Bash, and Lena Fadhil Hamza
13–14	PROCEEDINGS ABSTRACT Effects of telmisartan and of a common dandelion (<i>Taraxacum officinale</i>) extract on the serum reproductive hormone levels of rats subjected to high-fat diet- and letrozole-induced experimental polycystic ovary syndrome Zainab Hafedh Alsharifi and Aymen A. Bash
15–16	PROCEEDINGS ABSTRACT Development and physicochemical characterization of selenium nanoparticles stabilized and functionalized by hyaluronic and gallic acid Dhuha Al-Hasnawi, Dhafir Masheta, and Asim A. Balakit
17–18	PROCEEDINGS ABSTRACT Study of a novel series of 1,2,4-triazole derivatives: synthesis, spectroscopic characterization, and <i>in silico</i> assessment as antifungal substances Saja Alsahy and Hussam W. Al-Humadi

- 19–20 PROCEEDINGS ABSTRACT
A novel polyethylene glycol / graphene oxide composite as a nanocarrier of methylprednisolone: synthesis and physicochemical characterization
 Suhad H. Alzubaidy and Shafq Al-Azzawi
- 21–22 PROCEEDINGS ABSTRACT
Comparative assessment of the effects of resatorvid and sulfasalazine on disease severity, intestinal histopathology, as well as inflammation and oxidative stress markers in a murine experimental model of ulcerative colitis
 Baneen Abbas Altaay and Fatima Adnan Alzubaidi
- 23–24 PROCEEDINGS ABSTRACT
Combining vancomycin with caspofungin against a *Staphylococcus aureus*–*Candida albicans* coinfection in an *in vitro* pharmacokinetics / pharmacodynamics model: robustness of the modeling and the impact of albumin and platelets
 Asmaa S. Dhaidan and Hussam W. Al-Humadi
- 25–26 PROCEEDINGS ABSTRACT
Association of age, anthropometric measurements, reproductive history, and critical serum hormone levels with *in vitro* fertilization outcomes in Iraqi women
 Rafal H. Jawad and Dhafir Masheta
- 27–28 PROCEEDINGS ABSTRACT
Development and characterization of a novel nanocomposite hydrogel using polyvinyl alcohol, chitosan, and SiO₂: promising findings for its employment in biomedical applications
 Karrar Najeh Chfat, Noor Hadi Aysa, and Shafq Al-Azzawi
- 29–30 PROCEEDINGS ABSTRACT
Pioglitazone improves the motor function and attenuates the central and peripheral alpha-synuclein burden in a rotenone-induced model of Parkinson's disease in rats
 Ghufuran Sapri Abbood, Fatima Adnan Alzubaidi, and Mazin J. Mousa
- 31–32 PROCEEDINGS ABSTRACT
Design, synthesis, characterization, and *in silico* assessment of novel 1,3,4-thiadiazole–urea derivatives as inhibitors of the vascular endothelial growth factor receptor 2
 Noora A. Al-Jubouri, Shaker A. Abdul Hussein, and Hussam W. Al-Humadi
- 33–34 PROCEEDINGS ABSTRACT
Protective effects of a *Capparis spinosa* extract, alone and in combination with silymarin, on the hepatic injury and critical liver function markers of rats exposed to acetaminophen
 Abrar Abdulkareem Jawad and Qayssar Joudah Fadheel
- 35–36 PROCEEDINGS ABSTRACT
Serum soluble fms-like tyrosine kinase-1 as an ancillary diagnostic biomarker in molar pregnancy: histological correlates and differentiation of a complete from a partial hydatidiform mole in Iraqi women
 Mazin J. Mousa and Nareeman Abdulhassan Karbul
- 37–38 PROCEEDINGS ABSTRACT
Niosomes as versatile nanocarriers: a review of recent application advances and challenges
 Maryam Maan Jaafar, Ghada Hamid Naji, and Faris Abdul Kareem Khazaal
- 39–40 PROCEEDINGS ABSTRACT
The translational research potential of Iraq's native fauna: the desert gerbil (*Psammomys obesus*) as a non-genetic model of diet-induced metabolic syndrome progression

- 41–42 PROCEEDINGS ABSTRACT
Antifungal efficacy of selected oral antidiabetic drugs against *Candida albicans* and *Candida glabrata*: an *in vitro* pharmacodynamic analysis
Duha Hussain Abd-Alhadi and Hussam W. Al-Humadi
- 43–44 PROCEEDINGS ABSTRACT
Efficacy of non-steroidal anti-inflammatory drugs in the pain management of acute renal colic and irritable bowel syndrome: evidence from an Iraqi emergency department
Ali Jalil Al-Saigh, Hala Saad Bash, Suhad Hussein Atshan, Rafal J. Al-Saigh, and Sally H. Al-Humadi
- 45–46 PROCEEDINGS ABSTRACT
C3 and C4 complement consumption patterns as predictors of haemolysis severity in Iraqi autoimmune haemolytic anaemia patients: a study employing a multimarker integration approach
Zaman I. L. Al-Kaabi
- 47–48 PROCEEDINGS ABSTRACT
Ocular drug delivery: a review of emerging approaches and advances
Rusul N. Hadi and Dahfir Masheta
- 49–50 PROCEEDINGS ABSTRACT
Protective effects of herbal extracts against drug-induced toxicity: a review of pharmacological evidence and mechanisms
Timaa Mohammad Mohammad, Qayssar Joudah Fadheel, and Ahmed Sabah Kadhim
- 51–52 PROCEEDINGS ABSTRACT
In vitro* pharmacodynamic modelling of the antibacterial effects of selected oral antidiabetic drugs against *Staphylococcus aureus* and *Escherichia coli
Duha Hussain Abd-Alhadi and Hussam W. Al-Humadi
- 53–54 PROCEEDINGS ABSTRACT
Impact of the COVID-19 vaccination on hair loss: a study on vaccinated individuals from the Babil Province (Iraq)
Oday A. Mahdi and Zinah S. Salman
- 55–56 PROCEEDINGS ABSTRACT
Anti-inflammatory and antioxidant effects of medicinal plant extracts: a review of pharmacological evidence and mechanisms
Safa Adnan Mahmood, Qayssar Joudah Fadheel, and Karar M. Jaleel
- 57–58 PROCEEDINGS ABSTRACT
Pathophysiological mechanisms and emerging pharmacological strategies in sepsis-associated multiple organ dysfunction: a review
Maryam Ali Abdulhadi Al-Dhawalim, Fatima Adnan Alzubaidi, and Abdulhameed Mohamed Hammoodi Al-Samaraiy
- 59–60 PROCEEDINGS ABSTRACT
From inception to impact: Iraq's pharmacovigilance journey
Manal M. Younus
- 61–62 PROCEEDINGS ABSTRACT
Development, physicochemical characterisation, and antimicrobial activity assessment of selenium nanoparticles modified with chitosan and gallic acid
Dhuha Al-Hasnawi, Dhafir Masheta, and Asim A. Balakit

- 63–64 PROCEEDINGS ABSTRACT
Study of a novel series of compounds deriving from the 4-(4-chlorophenyl) cyclohexane-1-carboxylic acid: synthesis, spectroscopic characterization, and computational targeting of the CYP51 enzyme
 Saja Alsahy and Hussam W. Al-Humadi
- 65–66 PROCEEDINGS ABSTRACT
Critical serum cytokine levels of rats subjected to high-fat diet- and letrozole-induced experimental model of the polycystic ovary syndrome: modulation by dietary probiotic supplementation
 Bassam Hasan, Aymen A. Bash, and Lena Fadhil Hamza
- 67–68 PROCEEDINGS ABSTRACT
The modulatory role of semaglutide on nesfatin-1 in metabolic disorder: a review
 Ghufraan Mohammed Hussein Asal and Ghufraan Hussien Jebur Altaie
- 69–70 PROCEEDINGS ABSTRACT
The roles of liraglutide and visfatin in metabolic and inflammatory regulation: a review
 Ghufraan Mohammed Hussein Asal, Suleiman Mufid Shheida, and Hajer Alaa Obeid
- 71–72 PROCEEDINGS ABSTRACT
Immunosenescence and inflammaging: molecular mechanisms, age-related diseases, and therapeutic interventions
 Fatima Abdulkareem Alkhafji and Enass Najem Oubaid
- 73–74 PROCEEDINGS ABSTRACT
Recent advances in the design and synthesis of vascular endothelial growth factor receptor 2 antagonists: a review
 Zuhoor A. Ghazi, Shaker A. Abdul Hussein, and Saif M. Hassan
- 75–76 PROCEEDINGS ABSTRACT
The utility, effectiveness, and challenges of the use of antibody–drug conjugates in targeted cancer therapy: a narrative review
 Riyadh A. Yahia, Dhafir Masheta, and Ahmed Hameed AlSaeedi
- 77–78 PROCEEDINGS ABSTRACT
Molecular basis of drug-induced organ toxicity and advances in protective pharmacological interventions: a review
 Noor Mzedawee, Fatima Adnan Alzubaidi, and Jamal K. Alsaedi
- 79–80 PROCEEDINGS ABSTRACT
Novel thiadiazole–thiourea hybrids targeting the vascular endothelial growth factor receptor 2: design, synthesis, characterization, and *in silico* assessment
 Noora A. Al-Jubouri, Shaker A. Abdul Hussein, and Hussam W. Al-Humadi
- 81–82 PROCEEDINGS ABSTRACT
Nanocomposite-based drug delivery systems for targeted anti-inflammatory therapies: a review
 Alaa Mazen Obeid Almamory and Shafq Al-Azzawi
- 83–84 PROCEEDINGS ABSTRACT
Protective effects of a *Tephrosia purpurea* extract, alone and in combination with *N*-acetylcysteine, on the hepatic injury and critical liver function markers of rats exposed to carbon tetrachloride
 Huda I. Al-Khafaji and Qayssar Joudah Fadheel

- 85–86 PROCEEDINGS ABSTRACT
The impact of polymeric nanoparticle-based drug delivery systems in cancer therapy: a review
Mays Hussein Saleem and Shafq Al-Azzawi
- 87–88 PROCEEDINGS ABSTRACT
Evaluating the barriers to glycaemic control in Iraqi patients with type 2 diabetes: the impact of lifestyle, medication adherence, and clinical inertia
Fatimah Abbas Hatif and Aymen A. Bash
- 89–90 PROCEEDINGS ABSTRACT
Pharmacodynamic study of several antibacterial–antifungal combinations against a *Staphylococcus aureus*–*Candida albicans* coinfection in an *in vitro* model: effects of albumin and platelets
Asmaa S. Dhaidan and Hussam W. Al-Humadi
- 91–92 PROCEEDINGS ABSTRACT
Suicidal ideation as an adverse effect of fluoroquinolones: a review of recent evidence
Zahraa Hazim, Apostolos Zarros, Rafal J. Al-Saigh, Manal M. Younus, and Hussam W. Al-Humadi
