The series: *Colloquia Erudita* is an open-access series of proceedings aiming to serve the need of academic institutions, research groups, and scholarly societies for the rapid and permanently accessible publication of their congress, conference, or symposium proceedings. The series is published by St Cuthbert Press Ltd and considers the publication of proceedings of events of any scientific discipline in the form of individual volumes, provided that these are edited to a high standard and their abstracts comply fully with the series guidelines. The latter as well as the policies of the series can be found online. All enquiries from congress, conference, or symposium organizers should be addressed at least six months prior to the event to the editorial office *via* email (series@colloquiaerudita.com).

The publisher: St Cuthbert Press Ltd is a private limited company that is registered in England and Wales (15864431). The company's registered office address is: 1–2 New Blackett Street, Stanley, County Durham, DH9 8LT, England, UK.

Information for subscribers: The publisher offers subscriptions to the printed volumes of the series at a cost of 300.00 GBP per year, applicable to both individuals and institutions. Individual volumes may also be purchased (without a subscription). Up-to-date details can be found online.

Copyright statement: All proceedings abstracts (appearing in volume pages numbered using Arabic numerals) are published as open-access proceedings abstracts and are distributed under the terms and conditions of the Creative Commons Attribution 4.0 International (CC BY 4.0) license, thereby permitting their unrestricted use, distribution, and reproduction in any medium, provided the original work is properly cited. The copyright of each of these proceedings abstracts is retained by the respective author(s) under the terms and conditions of the CC BY 4.0 license. Unless otherwise stated, the copyright of all other elements of each volume of this series found online and in print (including but not limited to the name of the series, each volume's title and cover, and the paratextual content of each volume's pages numbered using Roman numerals) is retained by the publisher.

Disclaimer: Whilst every effort is made by the editors and by the publisher of the series to see that no inaccurate or misleading data or statements appear in each volume's proceedings abstracts, the accuracy and truthfulness of such data or statements remain the responsibility of the proceedings abstracts' author(s). Accordingly, the editors and the publisher of the series accept no liability whatsoever for the consequences of the publication of any such inaccurate or misleading data or statements.
